The following are in reference to the reportable crimes table on the previous page.

* In 2013, 2014, and 2015 there were no reported criminal incidents involving hate/bias.

§Unfounded crimes (those that a commissioned peace officer has investigated and found to be false or baseless and are subsequently withheld from the crime statistic) are required to be disclosed beginning in calendar year 2014.

For the 2013, 2014, and 2015 crime statistics tables disclosed on the previous page, statistics were requested from local law enforcement agencies. However, they were unable to be provided in a usable format enabling a determination to be made as to whether or not they should be counted. Also, calendar years 2013-2015 crime statistics included in this report were determined in accordance with the Clery federal register (34 C.F.R.668.46) as of October 20, 2014, and guidance in the Handbook for Campus Safety and Security Reporting (Handbook) published by the U.S. Department of Education in February 2011 which was effective when the crimes occurred and statistics were collected. Subsequently, the Handbook was updated in June 2016 and will be used for reporting Clery crime statistics for calendar year 2016 and future years.

Crime Prevention and Security Awareness

It is important for all of us to understand our role in the reduction of crime. A conceptual aid often employed by crime prevention practitioners is referred to as the Crime Triangle. For any crime to occur three elements must be present: desire, ability, and opportunity.

Members of the university community easily recognize there is little that can be done to control the criminal’s ability and desire. The university community’s greatest strength in the prevention of crime is our initiative to reduce or eliminate the opportunity for a crime to occur.

A primary goal of CityCentre Security is the prevention of crime before it occurs. Because security personnel cannot be everywhere all the time, they need the help of all members of the MBS CityCentre community to take an active role in their personal safety and property protection. Crime prevention is important to the campus community and you can help by reporting any crime or suspected crime immediately to CityCentre Security. By doing so, you may be preventing someone else from becoming a victim of a more serious crime.

At the beginning of each class year students receive the MBS CityCentre Building Use Guidelines from the Mays Business School and a link to the CityCentre Tenant Handbook. The documents address building security, building access, alcohol and drug policies, and guidance for handling suspicious, criminal, or emergency situations. When there is an update to either document, a notice and the update are emailed to students.

No formal crime preventions programs are offered at the MBS CityCentre campus, however, students and employees at MBS CityCentre have access to the University Police Department crime prevention programs described below.

The University Police Department’s Community Services Division, staffed by officers who are state Certified Crime Prevention Specialists, continually presents programs covering crime prevention and security information to students, staff, and faculty. These Crime Prevention Specialists are dedicated full time to crime prevention efforts and programs. They participate and provide information during new and transfer student orientation, international student orientation, in addition to a number of other programs scheduled annually with student, staff and faculty organizations. For additional information or to schedule a program you are encouraged to call the Community Services Division at 979-862-8125.

The University Police Department offers a variety of crime prevention programs and services to our community members.
