## **A Message from Our Directors**

Welcome to Texas A&M University and the on-campus living experience. The Department of Residence Life and the Office of the Commandant have an outstanding on-campus housing program and extend to you the opportunity to become an integral part of this community.

We are committed to offering Texas A&M University students a world-class on-campus student living and learning experience.

Our goals are to provide a safe, secure, high quality physical environment through preventative maintenance, renovation and new construction; establish guidelines and operational support mechanisms that are cost-effective; provide structure and enhance compatible and cooperative community living; and to develop an interpersonal environment that reflects individual responsibility, a concern for others, respect for and appreciation of diversity, and an atmosphere that is conducive to the learning, growth and personal development of each resident.

This publication is designed to provide information about department services, programs and statistical information as required by law. If you have any questions or suggestions concerning this publication, please contact Environmental Health and Safety at (979) 845-2132, [ehsd@tamu.edu](mailto:ehsd@tamu.edu), or the Department of Residence Life at (979) 862-3158.

Sincerely,

Chareny Rydl  
Director  
Residence Life

Christina Robertson  
Director  
Environmental Health and Safety

## **Policy for Preparing the Annual Housing Fire Safety Report**

Texas A&M University Environmental Health and Safety compiles the Annual Housing Fire Safety Report with information and input from various sources such as Residence Life, Corps Housing and University Risk and Compliance, and maintains a log of fire statistics.

The Annual Housing Fire Safety Report is to be published every year by October 1<sup>st</sup> and will contain three years of selected fire statistics in accordance with the Higher Education Opportunity Act (HEOA). This, the 2016 report, contains the statistics for calendar years 2013-2015.

## **Annual Fire Safety Report and Related Information**

The Annual Housing Fire Safety Report is required by the HEOA for any Title IV institution that maintains an on-campus student housing facility. Per HEOA, an institution that maintains an on-campus student housing facility must collect fire statistics, publish an Annual Fire Safety Report, and keep a fire log.

The Clery Act was amended by HEOA in 2008, requiring future reports to begin including campus housing fire safety statistics. The information contained in this document relates to fire safety for on-campus student residential housing only. The Annual Security Report can be found on the University Risk and Compliance Department's website at

<http://urc.tamu.edu/media/1157075/CSAnnualSecurityReport.pdf>

A copy may be requested by emailing UPD at [upd@police.tamu.edu](mailto:upd@police.tamu.edu) or by calling (979) 845-2347.

## **Notifications**

Each year, an e-mail notification is sent to all current students, faculty, and staff providing the web site to access this report. Upon request, students, employees, and others may obtain a written paper copy of the report from Environmental Health and Safety located at 1111 Research Parkway; by calling (979) 845-2132; or on the web:

<http://urc.tamu.edu/media/1157614/CSAnnualFireReport.pdf>, or by e-mail at [ehsd@tamu.edu](mailto:ehsd@tamu.edu).

Prospective employees are notified about the Annual Fire Safety Report Act through an email distributed when applying for a vacant position and via the Texas A&M University Human Resources jobs website: <https://jobpath.tamu.edu>. There is a link on the right menu bar to the safety and security notices. Employees are also notified via a link on the Human Resources webpage titled Required Employee Notices, Safety and Security Notices: <http://employees.tamu.edu/employees/required-notices/>.

Prospective students are notified of the availability of the Annual Fire Safety Report through an email distributed when applying for admission. Prospective students and parents of students can also read about and reference Clery Act information on the Office of Admissions webpage (<http://admissions.tamu.edu/>) via a link titled "Campus Safety" located at the bottom of the webpage.

A fire log is maintained by Environmental Health and Safety, and is accessible to the public on site at 1111 Research Parkway, College Station, Texas. A request can be made by phone at 979-845-2132, or a written request may be sent to EHS, 4472 TAMU, College Station, TX 77843-4472.

## **Reporting Fires**

Per federal law, Texas A&M University is required to annually disclose statistical data on all fires that occur in on-campus housing facilities. In the event of an emergency, please call 911 from any phone. Below are the non-emergency phone numbers to call to report fires that have already been extinguished. These phone numbers are for fires which you are unsure of whether the Texas A&M University Police is aware. If you find evidence of such a fire or if you hear about such a fire, please contact one of the following:

Texas A&M University Police (979) 845-2345

Texas A&M University Environmental Health & Safety (979) 845-2132

Texas A&M University Department of Residence Life (979) 862-3158

Texas A&M University Corps Housing (979) 845-3443, Commandant Duty Officer (979) 229-5826

When calling, please provide as much information as possible about the location, date, time, and cause of the fire.

## **Fire Safety Education and Training Programs**

Texas A&M University strives to provide a safe and friendly environment for all of our campus community. To assist in this manner, several measures are taken including: regular fire and life safety inspections in all campus housing facilities; various education programs targeted at specific groups (Hall Directors, Resident Advisors, etc.); ongoing education and safety awareness, such as regular fire safety articles in our Safety Dispatch Newsletter; an annual campus safety awareness program and mock dorm room burn; and the development of university rules and standard administrative procedures (SAP) regarding fire safety (see below).

Additional information is available in the Texas A&M University Safety Manual, particularly, chapter 8 - Fire and Life Safety, and each facility is required to develop an emergency evacuation plan. Guidelines and templates are available on the Environmental Health and Safety website (see below). These plans outline procedures for notification of emergency personnel as well as evacuation procedures for building occupants.

Texas A&M University Safety Manual Chapter 8 – Fire and Life Safety:

<https://ehsd.tamu.edu/Fire%20Life%20Safety%20Documents/TAMU%20Safety%20Manual-%20Fire%20and%20Life%20Safety.pdf>

Texas A&M University Rules and SAPs have additional information.

Fire and Life Safety Compliance – (Rule) - <http://rules-saps.tamu.edu/PDFs/24.01.01.M7.pdf>

Use of Pyrotechnics and Flame Effects – (SAP) - <http://rules-saps.tamu.edu/PDFs/24.01.01.M7.01.pdf>

Safe Use of Outdoor Fires – (SAP) - <http://rules-saps.tamu.edu/PDFs/24.01.01.M7.03.pdf>

Restriction on Candles – (SAP) - <http://rules-saps.tamu.edu/PDFs/24.01.01.M7.02.pdf>

Generic Evacuation Plan – Can be found on the Fire and Life Safety webpage:  
<https://ehsd.tamu.edu/Pages/FireLifeSafety.aspx>

Also see <https://ehsd.tamu.edu/Lists/Calendar/calendar.aspx> or email EHS at [ehsd@tamu.edu](mailto:ehsd@tamu.edu) to request training.

## About Texas A&M University

Texas A&M University, located in College Station, first opened its doors on October 4, 1876. In addition to the main campus, Texas A&M University has two branch campuses.

From humble beginnings in 1876 as Texas' first public institution of higher learning, to a bustling 5,200 acre campus among the nation's five largest universities with an enrollment of over 64,500 students from more than 130 countries and a nationally recognized faculty, Texas A&M University is one of a select few universities with land-grant, sea-grant and space-grant designations. The university has an enrollment of about half men and half women.

Texas A&M holds a triple federal designation as a Land-Grant, Sea-Grant, and Space-Grant University and:

- Consistently ranks among the country's top universities in enrollment of National Merit Scholars
- Ranks 2<sup>nd</sup> among public universities in the "Best Value Schools" category and 21<sup>st</sup> overall among public universities according to U.S. News & World Report, 2016
- Conducts research valued at more than \$866 million in research expenditures generated by faculty
- Serves as home to the George Bush Presidential Library and Museum, which opened in 1997 and has attracted more than 2 million visitors
- Holds membership in the Association of American Universities, a highly selective organization that promotes high standards for teaching, research and scholarship at the undergraduate, graduate and Professional levels – only one of 62 institutions with this distinction
- Includes one of the nation's largest uniformed student body and commissions more officers than any other institution, except for the nation's service academies, with more than 2,450 men and women participating on a voluntary basis. ROTC programs lead to commissions in all four branches of the military: Army, Air Force, Navy and Marine Corps.

**Academic Building**

In addition to their formal academic studies, Texas A&M's students have abundant opportunities to round out their education and hone their leadership skills through participation in more than 1,000 student led campus organizations, including the Corps of Cadets. About 71 percent of the student body receives some form of financial assistance through scholarships, grants, loans, waivers, work-study, and on-campus student employment equating to approximately \$533 million in financial

assistance annually. Twenty-five percent of the incoming freshman class are the first in their families to attend college.

## **On-Campus Housing Facilities**

Texas A&M University offers a variety of on-campus housing options. These options include several different styles of residence halls, each offering their unique characteristics and floor plans. In addition to the residence halls, a variety of apartment living options are available in two locations on campus.

On-campus housing options are under the responsibility of two primary groups: The Department of Residence Life and the Corps of Cadets.

U Centre at Northgate (UCNG), described below as “Other Student Housing”, is treated as an on-campus housing facility as it is located on Texas A&M University owned property. American Campus Communities (ACC) is an owner and manager of the academically-oriented student housing.

## **About the Department of Residence Life**

The Department of Residence Life provides welcoming, educational, and sustainable community living at the heart of the Aggie experience.

We cultivate an environment where students

- engage, challenge, and grow together,
- feel respected and supported,
- focus on their academic goals, and
- create positive, memorable experiences and lifelong friendships.

We provide

- safe, sustainable, quality physical environments,
- well maintained historic and state of the art facilities,
- conveniently located cost effective housing options, and
- reliable and responsive service.

Residence Life core values include the following elements.

- Integrity – Unified adherence to ethical, truthful, and factual conduct.
- Respect – Recognize and honor the dignity, value, and individuality of each person.
- Quality – Provide excellence throughout a complete range of services, programs, and personnel.
- Service – Dedicated to being proactive, effective, reliable, and responsive.
- Community – Develop, promote, and preserve positive collaboration, understanding, and interaction.
- Vision – Valuing opportunities for learning, innovation, and positive change.

The Department of Residence Life is a self-sustaining auxiliary department that receives no state funding. The department currently operates 25 residence halls with the capacity for over 7,500 students and offers six different and distinctive styles of living facilities. Additionally, the department oversees 12 residence halls on the Corps of Cadets quad with accommodations for approximately 2,600 cadets. The department also houses approximately 2,100 students in 13 university apartment buildings (829 units) in two different geographic locations on campus. During the summer months, the Conference Services program hosts about 8,000 guests on-campus.

To serve our students, the Department of Residence Life employs over 55 full-time employees and 200 part-time student team members in the following service component areas:

- Housing Assignments & Conference Services
- Information Technology Services
- Risk Management
- University Apartments
- Facilities and Operations
- Business Operations
- Residence Education
- Corps of Cadets

## **Residence Life and the Corps of Cadets**

### Role of Corps Housing

The Department of Residence Life assumes responsibility for the residence halls and lounge facilities used by the Corps of Cadets, including physical upkeep and fire safety policies for the buildings. Additionally, Residence Life is responsible for the housing contract, rent collection, and move-in/move-out process for the cadets living in the Corps residence halls.

The Office of the Commandant is responsible for all policies related to student behavior in the Corps residence halls and Leadership Learning Center, including enforcement of said policies.

### Corps Area Housing Office Staff

Full-time staff within Corps Area Housing Office includes the Coordinator for the Corps Housing Office and the Office Manager. Several student workers are employed to perform administrative and maintenance related duties and responsibilities in various capacities. Additionally, each building has a student Corps Housing Officer (CHO) that assists with administrative functions of the Corps Area Housing Office.

## **Residence Hall Fire Safety Policies**

To provide for the safety of our residents, the Department of Residence Life has developed an extensive set of guidelines and policies for the residence halls including Corps halls. These documents provide examples related to fire safety and are available electronically on the Residence Life's webpage: [https://reslife.tamu.edu/wp-content/uploads/RULES\\_Reslife\\_Handbook.pdf](https://reslife.tamu.edu/wp-content/uploads/RULES_Reslife_Handbook.pdf)  
[https://reslife.tamu.edu/wp-content/uploads/RULES\\_Corps\\_Handbook.pdf](https://reslife.tamu.edu/wp-content/uploads/RULES_Corps_Handbook.pdf)

### Appliances and Equipment

Any prohibited or misused appliances or equipment will be documented by the hall staff, and individuals responsible will be subject to disciplinary action. Prohibited appliances and equipment include but are not limited to the following:

- Air conditioners (with the exception of Walton Hall and Hart Hall where the University provides permanently installed window units)
- Camping stoves
- Ceiling fans
- Electric skillets
- Electric power tools (with the exception of storage for use outside of the halls)
- Fog Machines
- Gas power tools
- Griddles
- Grills (George Foreman type, charcoal or propane)
- Halogen torchiere lamps
- Hot oil popcorn poppers
- Hot plates
- Oven broilers
- Sandwich makers
- Space heaters
- Toasters

**Krueger Hall**

### Arson/Campfires

Starting a fire within a residence hall or within the immediate surroundings outside a residence hall is strictly prohibited at all times. Violations of this rule, which may also be considered violations of state law, include setting fire to items on a room door or bulletin board or any other flammable material in the hall, as well as starting outdoor fires in non-designated areas. Grilling in designated grill areas is acceptable.

### Candles/Incense/Wax Warmers/Open Flames

Candles, candle warmers, incense, oil lamps and other devices which use an open flame (including potpourri pots) are prohibited in residence halls. Items will be confiscated and residents will be subject to disciplinary action. Wax warmers are allowed to be used, but the wax must be manufactured for use in the wax warmers and it must be heated with a light bulb that is housed in a ceramic enclosure. Wax warmers should never be left unattended.

### Cooking

Residents are responsible for ensuring that proper sanitation, ventilation, and fire safety precautions are taken. Any damages resulting from improper food disposal will be billed to the individuals responsible.

### Decorations

No decorations may hinder the use of or restrict access to hallways, doorways, stairs, corridors, or fire related equipment. Do not attach anything to or tamper with light fixtures or exit signs. Flammable material (posters, cloth) should not be attached to room ceilings. Wall decoration should be at least 12 inches from the ceiling. Do not cover your entire door with decorations. This serves as a fuel source for fires. Decorative lighting should never be attached using tacks and nails. These restrictions apply to student rooms as well as public areas. Contact the residence hall staff for further details. Decorations violating this regulation may be removed by the hall staff and/or billed to the student for removal.

### Electrical Power Strips and Extension Cords

When additional electrical outlets are needed, residents must use Underwriters Laboratories approved electrical power strips with built-in circuit breakers. Multiple plug adapters and extension cords are not permitted. Power strips should never be plugged into another power strip. Power strips should never be placed above the ceiling tiles, underneath carpet or stapled or pinched in any way. Running extension cords underneath mattresses is prohibited.

### Emergency/Safety Equipment

Tampering, damaging, or inhibiting the use of emergency/safety equipment, including exterior residence hall doors, in any residence hall is prohibited. Residents may not use emergency equipment for any purpose other than emergency use. Residents involved in such activities will be subject to disciplinary action and may be removed from University housing. This regulation includes, but is not limited to, fire extinguishers, heat and smoke detectors, exit signs, fire alarm pull stations, or locked exterior doors.

### Fireworks/Explosives/Hazards

Students may NOT possess or use any fireworks, explosives, sparklers, ammunition (except as permitted by law, see below for details), gun powder, gasoline, hazardous chemicals, flammable liquids or any other related materials in the residence halls. Possession of fireworks or explosives implies intent to use them. If found, these items will be confiscated by Residence Life staff and disciplinary action will be taken.

Concealed handgun license holders must follow all state and federal laws concerning owning and possessing a handgun on campus. Any resident who is licensed to carry a concealed handgun and chooses to bring the handgun into their residence hall room or university apartment must store his or her handgun and ammunition in an electronic locking steel safe that has been rented or purchased from the Department of Residence Life. For information regarding personal safe rentals/purchases, visit the Residence Life Amenities page, Add-Ons, Personal Safes at:

<https://reslife.tamu.edu/living/amenities/>

### Halogen Torchier Lamps

Halogen torchiere lamps can pose a serious fire hazard and therefore is not permitted inside the residence halls. Halogen torchiere fixtures found in student rooms may be confiscated and residents may face disciplinary charges.

## Smoking

Texas A&M University is a smoke-free campus, which means smoking is not permitted in any indoor space, including residence halls. While smoking outside near entry ways, please be considerate of others. You may be asked to move if your smoke begins to travel indoors. Smoking, including the use of e-cigarettes/vaping, is prohibited on the balconies (including first floor) of the balcony-style halls. Furthermore, smoking is prohibited in the following locations:

- All other buildings, entrances to buildings, and vehicles, owned or leased under the administrative purview of the President of Texas A&M University will be entirely smoke-free and tobacco-free. This rule will apply to all indoor air space including foyers, entryways and classrooms, individual faculty and administrative offices, and sidewalks, parking lots, walkways, and attached parking structures immediately adjacent to all such buildings and structures.
- Texas A&M University owned and leased housing (apartments, residence halls), and all indoor air space of University owned athletic facilities and outdoor public seating areas in athletic arenas will be smoke-free.
- Eating areas (dining halls, cafeterias, food courts, snack bars, University Club) will be smoke-free and tobacco-free.

## **Residence Hall Inspection Program**

### Monthly Inspections

A fire and life safety inspection is conducted in each residence hall by Environmental Health and Safety staff when the facility is being occupied. These inspections focus on public areas within each hall, including corridors, stairways, and exit paths.

### Pre-Occupancy Inspections

Prior to occupancy of residence halls each fall, spring and summer semester, a more in-depth inspection is conducted. These inspections include all common areas, mechanical, electrical, and custodial areas within each building as well as exit paths outside of the facilities.

### Annual Inspections

Once each calendar year, a complete fire and life safety inspection is conducted in each residence hall. These inspections focus on all aspects of fire and life safety in the halls. These inspections are conducted by Environmental Health and Safety staff.

### Fall Room Inspections

Each fall semester inspections are conducted in all residence hall rooms to increase the level of safety and safety awareness for all occupants of our residence halls. These inspections include residence hall rooms and staff offices to verify that relevant fire safety information is in place in each room, that fire safety equipment is in place and operable, and that prohibited items are not in or being used in our residence halls. These inspections are conducted by Environmental Health and Safety staff with access and escorts provided by Residence Life or Corps Housing Staff.

### Fire Safety Systems Inspections

SSC Service Solutions is responsible for and conducts inspections, testing, and maintenance of fire safety equipment in compliance with the applicable requirements of the National Fire Protection Association codes and standards.

### State Fire Marshal Inspections

All campus living facilities, including residence halls, are inspected every other year by the Texas State Fire Marshal's Office.

### **Residence Hall Evacuation Procedures**

It is the policy that upon activation of an automatic alarm or upon being instructed to do so by hall staff that all occupants of our residence halls and dormitories will immediately evacuate and relocate to a safe distance away from the facility.

Further information may be found in the Residence Life Resident Handbook or the Cadet Resident Handbook.

[https://reslife.tamu.edu/wp-content/uploads/RULES\\_Reslife\\_Handbook.pdf](https://reslife.tamu.edu/wp-content/uploads/RULES_Reslife_Handbook.pdf)

[https://reslife.tamu.edu/wp-content/uploads/RULES\\_Corps\\_Handbook.pdf](https://reslife.tamu.edu/wp-content/uploads/RULES_Corps_Handbook.pdf)

### **Residence Hall Evacuation Drills (Fire Drills)**

Two scheduled and supervised evacuation drills are conducted each semester that a residence hall is occupied by students. In calendar year 2015, halls open during the spring and fall semester had four drills conducted while those housing students during the summer had six drills.

**Appelt Hall**

\* All Corps Dormitories and Residence Halls have fire alarm systems consisting of room and corridor detection and manual pull stations at a minimum. All systems are monitored by the University Communication Center 24 hours per day and are on immediate response by the College Station Fire Department during occupancy.

\*\* Fully sprinkled buildings include wet pipe sprinkler systems in interior areas as required by NFPA 13 or NFPA 13R.

\*\*\* Standpipes are vertical water pipes within the building for fire department use.

\*\*\*\*Facilities contain student occupied sleeping areas within non-residential facilities.

The following Corps Dormitories are under renovation between May 2016 and August 2017: White, Whitely, Harrington, and Utay

## University Apartments Fire Safety Policies

Texas A&M University owns and operates two apartment complexes, collectively known as “University Apartments”. These two apartment complexes offer our traditional and non-traditional students a variety of living options. The Gardens Apartments are located near the intersection of South College and University and provide a variety of floor plan options for single students and students with families. Our newest apartment option, White Creek Apartments, are located on west campus and offer housing for single students with floor plans ranging from one to four bedrooms with private or shared restrooms.

Below is a summary of fire safety policies for the University Apartments. A complete guide containing all fire safety policies for the apartments as well as specific rules for each complex can be located in the Residence Life Resident Handbook at:

[https://reslife.tamu.edu/wp-content/uploads/RULES\\_Reslife\\_Handbook.pdf](https://reslife.tamu.edu/wp-content/uploads/RULES_Reslife_Handbook.pdf)

### Smoking

Texas A&M University is a smoke-free campus, which means smoking is prohibited in all areas of the apartment and in all public areas (e.g. Lobbies of buildings, Community Center and laundry facilities). If you are going to smoke go outside of the apartment at the exterior of the building or an appropriate distance away from the apartment units so that “second hand smoke” may not violate any surrounding private space.

### Candles

Candles are not permitted in the University Apartments.

### Electrical Power Strips

When additional electrical outlets are needed, residents should use United Laboratories approved electrical power strips with built-in circuit breakers. Multiple plug adapters and extension cords are not permitted because of fire hazard.

### Emergency Equipment

Tampering with, damaging, or inhibiting the use of emergency equipment is prohibited. Residents may not use emergency equipment for any purpose other than emergency use. This includes fire extinguishers, heat, and smoke detectors, exit signs, or any other emergency equipment. Because of the potential safety threat, residents found responsible for tampering with or damaging emergency equipment may be subject to university disciplinary action and/or contract cancellation.

### Fireworks/Explosives/Hazards

Students may NOT possess or use any fireworks, explosives, sparklers, ammunition (except as permitted by law, see below for details), gun powder, gasoline, hazardous chemicals, flammable liquids or any other related materials in the residence halls. Possession of fireworks or explosives implies intent to use them. If found, these items will be confiscated by Residence Life staff and disciplinary action will be taken.

Concealed handgun license holders must follow all state and federal laws concerning owning and possessing a handgun on campus. Any resident who is licensed to carry a concealed handgun and

chooses to bring the handgun into their residence hall room or university apartment must store his or her handgun and ammunition in an electronic locking steel safe that has been rented or purchased from the Department of Residence Life. For information regarding personal safe rentals/purchases, visit the Residence Life Amenities page, Add-Ons, Personal Safes at:

<https://reslife.tamu.edu/living/amenities/>

### Evacuation

You are required to evacuate the building or area when instructed by a University authority, police, firefighter, or when a fire alarm sounds.

### Exits

A door that leads to the outside of your apartment and leads to the ground is considered an exit. This includes upstairs apartment doors that have a walkway that leads downstairs to the ground. All exits must be completely clear at all times. Doors must be able to open 90 degrees without being blocked. Boxes, furniture or equipment may not be stored around the buildings, on the grounds or on balconies. Stairways, walkways and entrances to buildings and apartments may not be blocked. Clothes lines may not be strung across exterior doorways. Motorcycles/bicycles should not be left in walkways, breezeways, porches or sidewalks as these areas are designated as fire escapes.

### Fire or Smoke Alarm

If you are in your apartment when the smoke alarm or fire alarm sounds:

- Evacuate your apartment.
- Use caution before opening any doors. Feel the door with the back of your hand. If the door is cool, stay low and open the door. If the door is hot, find an alternate escape route.
- Pull the nearest fire alarm if the building alarm has not sounded.
- Call 911 (Emergency Services) from a neighbor's phone.
- Do not re-enter your apartment until the Fire Department has declared it safe to do so.

If you are trapped in your apartment:

- Keep the door closed and seal cracks with tape, clothes, sheets, etc.
- Call 911 to report that you are trapped and to report your location.
- Hang a light colored piece of cloth out your window to signal firefighters.
- Stay low and stay calm as you wait for firefighters.

### Fire Extinguishers

Fire extinguishers can be found in wall-mounted cabinets in the breezeways of the Gardens Apartments and hallways of White Creek Apartments.

## **University Apartments Inspection Program**

### Pre-Occupancy Inspections

Each apartment is inspected by University Apartments staff. These inspections include items such as pertinent fire safety information, proper heating/cooking appliance instructions, and fire and life safety equipment.

### Semi-Annual Inspections

Twice each calendar year, a complete inspection is conducted of each occupied unit within the Gardens Apartments for compliance with fire safety issues. Inspections are conducted once in the

fall semester for all units in White Creek apartments. Additionally, units housing tenants new to the White Creek complex will be inspected in the spring semester. These inspections are conducted by Environmental Health & Safety personnel, escorted by Residence Life staff.

#### Fire Safety Systems Inspection

SSC Service Solutions is responsible for and conducts inspections, testing, and maintenance of fire alarm systems in compliance with the applicable requirements of the National Fire Protection Association codes and standards.

#### State Fire Marshal Inspections

All campus living facilities, including University Apartments halls, are inspected every other year by the Texas State Fire Marshal's Office.

### **University Apartments General Safety Training**

Upon being accepted to live in the University Apartments, residents must complete an on-line safety training course as one of the terms of their lease. Items covered in this training include but are not limited to:

- Section 1: Household Safety
- Section 2: Fire and Weather Safety
- Section 3: Operation and Safety of Appliances
- Section 4: Child Safety
- Section 5: University Apartments Rules and Regulations

This training may be found at <http://reslife.tamu.edu/apartments/orientation>.

Additionally, University Apartments staff also receive training in various areas of fire and life safety including, but not limited to, hands on fire extinguisher training, responding to fire alarm activations, and the operation of fire detection and alarm systems.

### **University Apartments Evacuation Drills (Fire Drills)**

There are no scheduled evacuation drills conducted at the Gardens Apartments. Two scheduled and supervised evacuation drills are conducted each semester at White Creek Apartments.

### **University Apartments Prohibited Appliances**

The following major appliances are not allowed in the University Apartments: window unit air conditioners, space heaters and dishwashers, and washers and dryers except where provided by the Department of Residence Life.

## Description of University Apartment Fire Safety Systems

Apartment	Fire Detection System Information		Fire Suppression Information	
	Building fire alarm system with full detection and notification*	Monitored by University Communications Center*	Fully Sprinkled	Portable Fire Extinguishers
The Gardens F	X	X	X	X
The Gardens G	X	X	X	X
The Gardens H	X	X	X	X
The Gardens J	X	X	X	X
The Gardens K	X	X	X	X
The Gardens L	X	X	X	X

White Creek A	X	X	X	X
White Creek B	X	X	X	X
White Creek C	X	X	X	X

\* Building fire alarm systems are monitored by the University Communication Center 24 hours per day and are on immediate response by the College Station Fire Department.

## **Other Student Housing – U Centre at Northgate**

### U Centre at Northgate Fire Reporting and Safety Policies

American Campus Communities (ACC) is an owner and manager of academically-oriented student housing. ACC operates the U Centre at Northgate (UCNG) Apartments which is located on Texas A&M University owned property at 907 Cross Street in College Station, Texas. Leases are between ACC and the tenant. ACC is responsible for the operation and maintenance of this complex and the related fire safety policies and improvements. Regular meetings and communications occur between UCNG management and Texas A&M University's Assistant Director of Environmental Health and Safety.

UCNG opened in August of 2014, therefore, the 2016 Annual Fire Safety Housing Report contains only two years of statistics for this complex. ACC is responsible for reporting fires that occur in UCNG to Texas A&M University Environmental Health and Safety for inclusion in the Annual Fire Safety Report statistics.

To provide for the safety of their residents, UCNG has developed an extensive set of guidelines and policies for their apartment community. These documents are provided to the tenants prior to occupancy in the community. Examples are provided below for several areas related to fire safety:

Prohibited items and actions for UCNG include:

- Fireworks and other similar combustibles,
- Candles,
- Smoking devices (smoking is allowed in designated areas only),
- Space heaters,
- Maintenance or storing of gas-fueled vehicles,
- Grills (gas, charcoal, electric) allowed in designated areas only,
- Tampering with any or intentionally activating any fire alarm, fire sprinkler or similar fire safety system, and
- Storing of any flammable, hazardous, or explosive materials on the community grounds.

In the event of an emergency, individuals at UCNG should call 911 from a cellular or non-campus phone. If you find evidence of a fire at UCNG that has already been extinguished (non-emergency) or if you hear about such a fire, you should contact ACC management.

When calling, please provide as much information as possible about the location, date, time, and cause of the fire.

### UCNG Student Housing Evacuation and Drills

Individuals are required to evacuate the building or area when instructed by a University authority, police, firefighter, or when a fire alarm sounds. No scheduled evacuation drills are conducted at UCNG.

## **Other Student Housing – Park West**

### Park West Fire Reporting and Safety Policies

Park West is an academically-oriented student living community located on Texas A&M University owned property at 503 George Bush Drive West in College Station, Texas. Park West is owned by

NCCD College Station Properties LLC, TX and is operated by Servitas Management Group (Servitas). Leases at Park West are between Servitas and the tenant. Servitas is responsible for the operation and maintenance of this complex and the related fire safety policies and improvements. Regular meetings and communications occur between Servitas management and Texas A&M University's Assistant Director of Environmental Health and Safety.

Park West will open facilities in several phases beginning in August 2016 and continuing until August of 2017, therefore, the 2016 Annual Fire Safety Housing Report contains no fire statistics for this complex. Statistics will be included beginning in the 2017 report. Servitas is responsible for reporting fires that occur at Park West to Texas A&M University Environmental Health and Safety for inclusion in the Annual Fire Safety Report statistics.

To provide for the safety of their residents, Park West has developed an extensive set of guidelines and policies for their apartment community. These documents are provided to the tenants prior to occupancy in the community. Examples are provided below for several areas related to fire safety:

Prohibited items and actions for Park West include:

- Fireworks and other similar combustibles,
- Candles,
- Smoking materials, or smoking devices including E-cigarettes (smoking is allowed in designated areas only),
- Space heaters,
- Maintenance or storing of gas-fueled vehicles,
- Grills (gas, charcoal, electric) provided in designated areas only,
- Tampering with any or intentionally activating any fire alarm, fire sprinkler, fire extinguisher, or similar fire safety system, and
- Storing of any flammable, hazardous, or explosive materials on the community grounds.

In the event of an emergency, individuals at Park West should call 911 from a cellular or non-campus phone. If you find evidence of a fire at Park West that has already been extinguished (non-emergency) or if you hear about such a fire, you should contact Servitas management.

When calling, please provide as much information as possible about the location, date, time, and cause of the fire.

#### Park West Student Housing Evacuation and Drills

Individuals are required to evacuate the building or area when instructed by a University authority, police, firefighter, Servitas employee, or when a fire alarm sounds. No scheduled evacuation drills are conducted at Park West.

## Description of Other Student Housing Fire Safety Systems

Park West Bldg. #6600**	X	X	X	X

\* All buildings are equipped with a building fire alarm system with notification throughout each building. Within each dwelling unit, interconnected smoke alarms are installed that alert occupants within than unit.

\*\* Park West buildings 6100-6600 are currently under construction with a scheduled occupancy in December 2016.

## **Fire Safety Definitions (Department of Education)**

**On-campus student Housing Facility:** Any student housing facility that is owned or controlled by the institution, or is located on property that is owned or controlled by the institution, and is within the reasonably contiguous geographic area that makes up the campus is considered an on-campus student housing facility.

**Cause of fire:** The factor or factors that give rise to a fire. The causal factor may be, but is not limited to, the result of an intentional or unintentional action, mechanical failure, or act of nature.

**Fire:** Any instance of open flame or other burning in a place not intended to contain the burning or in an uncontrolled manner.

**Fire drill:** A supervised practice of a mandatory evacuation of a building for a fire.

**Fire-related injury:** Any instance in which a person is injured as a result of a fire, including an injury sustained from a natural or accidental cause, while involved in fire control, attempting rescue, or escaping from the dangers of the fire. The term “person” may include students, employees, visitors, firefighters, or any other individuals.

**Fire-related death:** Any instance in which a person—

- (1) Is killed as a result of a fire, including death resulting from a natural or accidental cause while involved in fire control, attempting rescue, or escaping from the dangers of a fire; or
- (2) Dies within one year of injuries sustained as a result of the fire.

**Fire safety system:** Any mechanism or system related to the detection of a fire, the warning resulting from a fire, or the control of a fire. This may include sprinkler systems or other fire extinguishing systems, fire detection devices, stand-alone smoke alarms, devices that alert one to the presence of a fire, such as horns, bells, or strobe lights; smoke-control and reduction mechanisms; and fire doors and walls that reduce the spread of a fire.

**Value of property damage:** The estimated value of the loss of the structure and contents, in terms of the cost of replacement in like kind and quantity. This estimate should include contents damaged by fire, and related damages caused by smoke, water, and overhaul; however, it does not include indirect loss, such as business interruption.

\* American Campus Communities (ACC) owns and operates the U Centre @ Northgate (UCNG) Apartments.

## **On-Campus Housing Initiatives**

### **Corps Dormitories**

Residence Life is currently involved in the final year of a multi-phase renovation project the Corps Dormitories. The current Phase includes White, Whitely, Utay and Harrington Dormitories. The scope of this renovation includes replacing all mechanical, electrical, and plumbing systems, building interiors, and exterior rehabilitation. Automatic sprinkler systems and new fire alarm systems are included a part of these renovations. The current phase is scheduled to be completed by August 2017.

### **University Apartments**

No future improvements in fire safety are planned at the time of this report.
